

REMUNERATION REPORT

**PURSUANT TO ARTICLE 123-ter OF LEGISLATIVE DECREE NO. 58/1998
AND ART. 84-quater OF THE ISSUERS' REGULATIONS**

Dear Shareholders,

This Shareholders' Meeting is called to express its advisory vote in relation to the policy adopted by the Company in respect of the remuneration of members of the boards of directors and key management personnel and the procedures used for its adoption and implementation pursuant to article 123-ter, paragraph 3(a) and (b), of Legislative Decree No. 58/1998. 58/1998.

This report has also been prepared for the purposes of art. 84-quater of the regulations governing issuers adopted by Consob with Resolution No. 11971 of 14 May 1999 (the "Issuers' Regulations"), as subsequently amended and in accordance with Annex 3A, Schemes 7-bis and 7-ter of the Issuers' Regulations.

Section I

Section 1 of this Remuneration Report describes and illustrates: (i) the Company's policy regarding the remuneration of directors and key management personnel adopted by the Company and (ii) the procedures for the adoption and implementation of this policy (the "Remuneration Policy").

The Remuneration Policy complies with the recommendations contained in article 6 of the Code of Conduct approved by the Corporate Governance Committee supported by Borsa Italiana S.p.A. (the "Code of Conduct" or "Code") in respect of the remuneration of directors ("**Directors**") and key management personnel ("**Managers**") of listed issuers, which Saras has signed up to.

The Remuneration Policy, moreover, has been adopted for the purposes of article 14 of the Procedure for Transactions with related parties approved by the Company's Board of Directors on 11 November 2010. It is recognised that the Remuneration Policy was amended and updated by the Board of Directors of Saras of 14 March 2016 to bring it in line with the new wording of the Code of Conduct based on which it is provided, among others, that the Remuneration Policy of executive directors or those vested with special offices (also applicable to key managers) considers the possibility for the company of "*requesting the repayment of all or part of the variable remuneration components paid (or withholding sums subject to deferment), determined based on data that subsequently proves to be manifestly incorrect*".

A. Preparation, approval and implementation of the Remuneration Policy

The Remuneration Policy for Directors and Managers is defined by the Board of Directors on the proposal of the Remuneration and Nomination Committee.

The guidelines and principles of the Remuneration Policy have been prepared and approved by the Remuneration and Nomination Committee.

B. Role of the Remuneration and Nomination Committee

In accordance with the provisions in articles 6.P.3. and 6.C.5. of the Code, the Board has established an internal Remuneration Committee which has also been assigned the functions of the Nomination Committee as provided for in art. 5 of the Code of Conduct (the "Remuneration and Nomination Committee" or "Committee"). The minimum rules on members, tasks and operation of the Committee are laid down in the relevant Regulations, as amended on 9 August 2012 to take account of new duties assigned to it. In particular, the Remuneration and Nomination Committee has duties comprising the function of providing proposals and consulting to the Board and, with reference to directors and managers with strategic responsibilities, it is tasked with:

- formulating proposals to the Board of Directors for defining the general remuneration policy;
- regularly assessing the adequacy, overall coherence and practical application of the remuneration policy by making use of, as regards executives with strategic responsibilities, the information provided by managing directors;
- performing preliminary activities and formulating proposals in relation to remuneration plans based on shares.

Furthermore, the Committee submits proposals to the Board of Directors for the remuneration of executive directors and other directors who cover specific offices as well as for the identification of performance targets related to the variable component of this remuneration; monitoring the implementation of decisions adopted by the Board of Directors and verifying, in particular, the actual achievement of the performance targets.

The Committee, in performing the tasks entrusted to it by the Board of Directors, may use external consultants expert in matters of remuneration policies, provided that they do not simultaneously provide the Human Resources Department, directors or executives with strategic responsibility services of significance that would effectively compromise the independent judgement of such consultants.

The Remuneration and Nomination Committee's rules state that the Committee shall comprise three non-executive directors, the majority of whom are independent, and that at least one member of the Committee should have adequate knowledge and experience of financial matters.

The following persons are currently part of the Remuneration and Nomination Committee: Gilberto Callera (Chairman), Laura Fidanza, both independent directors and Gabriele Previati, a non-executive director.

The meetings of the Remuneration and Nomination Committee are convened by the Chairman, whenever he deems it appropriate. The Committee is validly constituted when the majority of its members are present and it acts by an absolute majority of those present. Anyone whose presence the Committee considers appropriate can attend Remuneration and Nomination Committee meetings, on the understanding that no director shall attend Committee meetings in which proposals are formulated relating to their own remuneration. The Committee meetings shall be recorded in minutes. The Chairman of the Board of Statutory Auditors or another Auditor appointed by them also contributes to the work of the Remuneration and Nomination Committee.

C. Possible intervention of independent experts

The Company has not used any external consultants in the preparation of the Remuneration Policy.

D. Aims and principles

The Company defines and applies a general remuneration policy:

- (i) suitable to attract, retain and motivate highly-qualified personnel, with the professional qualities necessary to successfully manage the Company;
- (ii) aimed at incentivising management to create value for shareholders and to promote the sustainability of the Company in the medium-long term; and
- (iii) structured in such a way as to ensure that remuneration is configured to results actually achieved by the Company and management.

E. Fixed and variable components

E.1 Members of the Board of Directors

Non-executive directors and those not vested with special offices (including independent directors) are allocated a fixed fee determined by the General Shareholders' Meeting. There are no forms of remuneration linked to achieving the economic targets by the Company, nor are they recipients of remuneration plans based on the Company's financial instruments.

Members of the Committees established within the Board of Directors (the Remuneration and Nomination Committee and the Control and Risk Committee), in addition to the fee as directors as approved by shareholders on appointment, are allocated annual remuneration determined based on the particular commitment required of them by the tasks entrusted to them as members of the Committees.

With reference to Directors, following nomination, the Remuneration and Nomination Committee proposes the remuneration to be allocated to Directors to the Board of Directors. Based on the Remuneration and Nomination Committee's proposal to the Board of Directors, having heard the opinion of the Board of Statutory Auditors, it determines - pursuant to Article 2389, paragraph 3 of the Civil Code - the remuneration for Directors.

Directors, in addition to the remuneration decided by the Shareholders' Meeting, are only paid a fixed fee, with no incentives, share premiums or other variable fees provided for them.

The Company confirms the appropriateness of this choice and therefore the need to establish incentive mechanisms designed to retain and motivate Directors as long as the role of executive directors is allocated and/or the particular offices awarded to shareholder directors of the companies Gian Marco Moratti S.a.p.A. of Gian Marco Moratti and Massimo Moratti S.a.p.A. of Massimo Moratti, which under the shareholders' agreement signed on 1 October 2013 and relating to the shares they each own respectively in Saras S.p.A., exercise joint control over the company, as the interests of the latter are intrinsically aligned with achieving the priority target of creating value for all shareholders.

Positive or negative results achieved by them as executive directors of the Company, in fact, will in most cases be reflected in the value of their majority holdings, generating, therefore, the desire to achieve more than satisfactory results for the company.

This choice has also been confirmed with reference to the position of Executive Vice-Chairman as allocated to a person who performs the role of General Manager for which the determined remuneration based on the criteria laid down for Managers is considered adequate.

E.2 Managers

With reference to Managers, the Remuneration Policy states that their total remuneration includes:

- (i) a fixed component, that adequately compensates experience, the role covered and the scope of the responsibilities assigned to the Managers,
- (ii) a variable component linked to achieving specific performance targets (collective and individual, both economic and non-economic, depending on the long-term value creation for shareholders), which represents a significant part of the total remuneration for Managers,
- (iii) fringe benefits ordinarily allocated to Managers based on Group policies.

The variable component of remuneration will be separated into a short-term incentive, which generally expires annually, and a long-term incentive.

Short-term incentives on the entire variable component for the year may not exceed 40%.

In respect of the afore-mentioned general principles, the structure of the remuneration for Managers is determined on the following criteria:

(a) Pay level.

The overall pay level offered by the Company to Managers must remain competitive with respect to the average market level for similar offices and positions.

(b) Balance between the fixed and variable part of the remuneration.

The fixed and variable component of the remuneration must be adequately balanced, to discourage initiatives focused on the Company's short-term results and to prevent managers from being encouraged to act in conflict with the Company's strategic goals and the risk management policy.

The fixed component of the remuneration should therefore be sufficient to remunerate the performance of managers also in the case in which any variable fee has not been paid due to non-attainment of the relevant performance targets.

(c) Limit to the variable part of the remuneration.

The variable aggregate fee, referable to the year, attributable to each Manager, including any incentive in money or in kind (including, by way of example, the

allocation of shares in the Company in accordance with a stock plan), should be between a minimum of 70% of the fixed component of the remuneration and a maximum equivalent to 220% of the fixed component of the Manager's remuneration.

(d) Determining performance targets.

(i) *Parameters.*

There is a minimum performance threshold below which no premium or incentive will be paid to the Manager.

The performance targets whose attainment is linked to the payment of the variable fee will be previously determined by the Board of Directors and indicated to the Managers.

The variable fee will be determined on the basis of:

- (i) the economic results of the Company [and/or Group] and the performance of Saras' shares,
- (ii) each Manager's individual results

To this end, the following economic elements and performance will be identified:

- i. with specific reference to the economic results of the Company [and/or Group]: such as, by way of example, MOL [Group] and Total Shareholder Return of Saras' shares (equal to the change in share price);
- ii. as regards individual results: the strategic targets of the reference department.

In particular, the Board of Directors has identified the adjusted net profit as the parameter for performance to be assessed for the purposes of recognition of the short-term incentive.

As regards the amount of the annual variable, without prejudice to the limit of 40% for short-term incentives on the variable component as a whole for the year, the Board has identified energy efficiency, costs and working capital as reference parameters.

(ii) *Multi-year performance assessment.*

The performance of Managers must be assessed over a period of several years, providing for all variable fees (with the exception of short-term incentives) an accrual period of the related premium of at least three years.

(e) Deferment of part of the variable component.

Always with a view to ensuring exact correspondence between the amount paid to Managers by way of remuneration and their performance and to assess the impact of said performance on the Company's long-term results, the payment of a significant part of the variable fee accrued should be deferred for a period of at least one year.

The portion of variable fee, referring to the deferred year, will be no less than 60%.

The variable component - medium-long term incentive: Employee share plans

The variable component of the remuneration of Managers linked to achieving medium-long term targets comprises the Stock Grant Plan available on the Company website (<http://www.saras.it>).

It should be noted that the 2016/2018 Stock Grant Plan in force was approved by shareholders on 22 April 2016.

Further application criteria concerning the remuneration of Managers

(a) Clawback clauses

The variable components of the remuneration of Managers includes clawback mechanisms.

In particular, without prejudice to the attempting of every other action in the Company interests, the possibility will be envisaged of requesting the refund (in whole or in part), within two years of incentives paid to persons who, with intent or gross negligence, have been responsible for (or have concurred in) events relating to economic/financial indicators included in the Annual Financial Report adopted as parameters for determining the afore-mentioned variable components, as indicated below:

- proven and significant errors that result in a non-conformity with the accounting standards applied by the Company;

- verified fraudulent behaviour meant to obtain a specific representation of the financial position, operating performance or cash flows of Saras.

(b) Fees for the designated manager responsible for drafting company accounting documents.

The incentive mechanisms for the designated manager responsible for drafting company accounting documents should be consistent with the tasks assigned to them in order to minimise any conflict of interests.

In particular, in the determination of the performance targets, the individual targets must be linked to performing their specific duties.

(c) Prohibition of guaranteed bonuses.

There will be no guaranteed bonuses, i.e. not subject to any performance target or otherwise conditional upon the achievement of predetermined targets, except for bonuses possibly allocated when hiring new managers, the amount of which, however, may not exceed 70% of the fixed component of the remuneration that they will be paid.

F. Non-monetary benefits

There are no non-monetary benefits for Directors
Managers can be allocated non-monetary benefits according to Group policies, consisting mainly of company cars and health check-ups.

G. (please refer to point E above)

H. (please refer to point E above)

I. Consistency with long-term interests and the Company's risk management policy

The Company's long-term interests and the policy followed in relation to the management and monitoring of the main company risks are an integral part of the Company's internal control and risk management system. The remuneration policy has been prepared in full compliance with the afore-mentioned internal control and risk management system.

J. (please refer to point E above)

K. (please refer to point E above)

L. Termination of office or termination of the employment relationship

There are no pay-outs in the event of termination of office or termination of the employment relationship

M. Insurance, retirement or pension benefits

The Manager receives insurance for the refund of healthcare costs, as part of the FASI Health Fund.

N. (please refer to point E above)

O. Reference to the remuneration policies of other companies

The remuneration of directors and pay levels of managers are determined on the basis of market and sector practices in the general market and the specific sector in particular, by comparing the Company with leading listed Italian companies comparable thereto.

In particular, in the implementation of the Remuneration Policy, the Remuneration and Nomination Committee will be tasked with constantly monitoring market practice, both national and international, to assess the correspondence of the salaries paid by the Company to those paid by competing companies or otherwise comparable to the Company itself.

Section II

A description of the fees paid by the Company to its directors and key management personnel in the financial year 2016 are provided below.

Part One

Payments to non-executive directors

In 2016, non-executive directors were paid fixed fees agreed by the Shareholders' Meeting of 28 April 2015.

Fees for attending board committees

In 2016, non-executive director members of the Remuneration and Nomination Committee and the Control and Risks Committee were also paid the additional fees approved by the Board of Directors at its meeting of 28 April 2015 for being part these board committees.

Fixed additional fees for some executive directors

As regards the Chairman, Gianmarco Moratti, the CEO, Massimo Moratti and the Vice-Chairman, Angelo Moratti, in addition to the fees set out by the Shareholders' Meeting of 28 April 2015 for their role of directors, additional fees were granted for the amount determined by the Board of Directors on 14 May 2015.

Variable fees

In 2016, no variable fees were paid to members of the Board of Directors. This remuneration policy is justified, as indicated in Section I, in virtue of the fact that the Chairman, Gianmarco Moratti, the CEO, Massimo Moratti and the Vice-Chairman, Angelo Moratti are shareholders of the companies Gian Marco Moratti S.a.p.A. of Gian Marco Moratti and Massimo Moratti S.a.p.A. of Massimo Moratti, that exercise joint control of Saras S.p.A., with the result that their interests are inherently aligned with achieving the priority target of creating value for all shareholders.

As regards the Managers of Saras S.p.A., i.e. the Executive Vice-Chairman and the General Manager and another executive with strategic responsibilities, these subjects are recipients of a short-term incentive plan of a monetary nature and a medium-long term incentive comprising the Stock Grant Plan, as better described in Section I.

With reference to the Stock Grant Plan, the summary of the Performance Targets for the first year of validity of the Plan was prepared, with the help of the Remuneration and Nomination Committee, it being understood that the Allocation of Rights and the actual Provision of the Shares will only take place at the end of the three-year validity period of the Plan.

Other fees received by members of the Board of Directors

The Executive Vice-Chairman and General Manager Dario Scaffardi and the directors Angelomario Moratti and Gabriele Moratti received additional fees in 2016 within the scope of their employment relationship with the Company.

Pay-outs in the event of termination of office or termination of the employment relationship

There are no pay-outs in the event of termination of the office of director of Saras S.p.A. or termination of the employment relationship. The allowances listed in column 7 of Table 1 of Part Two of this Section II relate to termination pay-outs accrued until 31 December 2016 in the context of the employment relationship.

Part Two

Tables drawn up pursuant to Annex 3A, Schemes 7-bis (Table 1 and Table 3A) and 7-ter of the Issuers Regulation (Table 1) are attached.
